ACKNOWLEDGMENT

This monograph is based on the papers from a technical review on "Molecular Approaches to Drug Abuse Research" held on March 22-23, 1994. The review meeting was sponsored by the National Institute on Drug Abuse.

## Introduction

Theresa N.H. Lee

---

## Immunological Approaches to Nicotine Receptors

James W. Patrick, Shawn Neff, Kelly Dineley, and David Char

---

## The Dopamine D4 Receptor

Hubert H.M. Van Tol

---

## Behavioral Characterization of Mice Packing the 5-HT<sub>1B</sub> Receptor

Sylvie Ramboz, Frédéric Saudou, Djamel Aït Amara, Catherine Belzung, Andrée Dierich, Marianne LeMeur, Louis Segu, René Misslin, Marie-Christine Buhot, and René Hen

---

## Mechanisms Regulating Proenkephalin Gene Expression: Contributions of Transgenic Models

Steven E. Hyman and David Borsook

---

## Human Opioid Receptors: Chromosomal Mapping and mRNA Localization

Karen Miotto, Daniel Kaufman, Benito Anton, Duane E. Keith, Jr., and Chris J. Evans

---

## Molecular Biology of Opioid Receptors

Karen Raynor, Haeyoun Kang, Susan Law, Jennifer Heerdine, Melanie Tallent, Fredrick Livingston, John Hines, and Terry Reisine

---

## Mu Opioid Receptors: Cellular Action and Tolerance Development

Anton Mestek, Yan Chen, and Lei Yu

---

## Cloning and Characterization of Multiple Opioid Receptors

Huda Akil, Fan Meng, Alfred Mansour, Robert Thompson, Guo-Xi Xie, and Stanley Watson
Regulation of Acute and Chronic Opioid Receptor Functions by OBCAM, a Cell Adhesion-Like Molecule .............................. 141
   Horace H. Loh and Andrew P. Smith

Discrete Structural Domains and Cell-Specific Expression Determine Functional Selectivity of the Dopamine and Norepinephrine Transporters ................................. 154
   Kari J. Buck, Dominique Lorang, and Susan G. Amara

Drug Interactions with Vesicular Amine Transport .................. 176
   Doris Peter, Juan Jimenez, Yongjian Liu, Andrew Merickel,
   David Krantz, and Robert H. Edwards

Strategies for Identifying Genes Underlying Drug Abuse Susceptibility ................................................. 201
   John C. Crabbe, Kari J. Buck, Pamela Metten, and
   John K. Belknap
