Introduction—The Validity of Self-Reported Drug Use: Improving the Accuracy of Survey Estimates.............1
  Lana Harrison and Arthur Hughes

The Validity of Self-Reported Drug Use in Survey Research: An Overview and Critique of Research Methods.........17
  Lana Harrison

The Validity of Self-Reported Drug Use Data: The Accuracy of Responses on Confidential Self-Administered Answer Sheets.......37
  Adele V. Harrell

The Recanting of Earlier Reported Drug Use by Young Adults........59
  Lloyd D. Johnston and Patrick M. O’Malley

The Reliability and Consistency of Drug Reporting in Ethnographic Samples.............................................81
  Michael Fendrich, Mary Ellen Mackesy-Amiti, Joseph S. Wislar, and Paul Goldstein

New Developments in Biological Measures of Drug Prevalence........................................................................108
  Edward J. Cone

Comparison of Self-Reported Drug Use With Quantitative and Qualitative Urinalysis for Assessment of Drug Use in Treatment Studies.................................................................130
  Kenzie L. Preston, Kenneth Silverman, Charles R. Schuster, and Edward J. Cone

The Forensic Application of Testing Hair for Drugs of Abuse........146
  Mark L. Miller, Brian Donnelly, and Roger M. Martz

Patterns of Concordance Between Hair Assays and Urinalysis for Cocaine: Longitudinal Analysis of Probationers in Pinellas County, Florida.................................................................161
  Tom Mieczkowski and Richard Newell
The Validity of Self-Reports of Drug Use at Treatment Admission and at Followup: Comparisons With Urinalysis and Hair Assays

Eric D. Wish, Jeffrey A. Hoffman, and Susanna Nemes

The Validity of Self-Reported Cocaine Use in Two High-Risk Populations

Stephen Magura and Sung-Yeon Kang

Assessing Drug Use in the Workplace: A Comparison of Self-Report, Urinalysis, and Hair Analysis

Royer F. Cook, Alan D. Bernstein, and Christine M. Andrews

Studies of Nonresponse and Measurement Error in the National Household Survey on Drug Abuse

Joseph Gfroerer, Judith Lessler, and Teresa Parsley

Adaptive Sampling in Behavioral Surveys

Stephen K. Thompson

Self-Reported Drug Use: Results of Selected Empirical Investigations of Validity

Yih-Ing Hser

Design and Results of the Women’s Health Study

Roger Tourangeau, Jared B. Jobe, William F. Pratt, and Kenneth Rasinski

Mode of Interview and Reporting of Sensitive Issues: Design and Implementation of Audio Computer-Assisted Self-Interviewing

Judith T. Lessler and James M. O’Reilly

Privacy Effects on Self-Reported Drug Use: Interactions With Survey Mode and Respondent Characteristics

William S. Aquilino

The Use of the Psychological Laboratory To Study Sensitive Survey Topics

Gordon B. Willis
Repeated Measures Estimation of Measurement Bias for Self-Reported Drug Use With Applications to the National Household Survey on Drug Abuse.................................439
   Paul P. Biemer and Michael Witt

The Use of External Data Sources and Ratio Estimation To Improve Estimates of Hardcore Drug Use from the NHSDA........477
