Contents

AIDS and Intravenous Drug Abuse
C. Schuster and R. Pickens............................................ 1

Introduction of Nathan B. Eddy Memorial Award
E. Way................................................................................. 14

Biodirectional Effects of Opioids in Motivational Processes
and the Involvement of D₁ Dopamine Receptors
A. Herz.................................................................................. 17

Effects of 6-Hydroxydopamine Lesions of Nucleus Accumbens
on a Concurrent Schedule of Food, Water and Cocaine
Self-Administration
S. I. Dworkin, G. Guerin, S. M. Dworkin and J. Smith........ 27

Chronic Cociane Exposure During Gestation Results in
Neurobehavioral Deficits Evident Early in Ontogeny
L. Spear, N. Frambes, C. Kirstein, J. Bell, L. Rogers,
V. Yoottanasmuspun and N. Spear........................................ 28

Differential Effects of the Manipulation of Serotonin
Systems on Intravenous Amphetamine and Cocaine Self-Adminis-
tration in Rats
L. Porrino, L. Sharpe, M. Ritz, N. Goodman,
S. Goldberg and M. Kuhar.................................................. 29

Evaluation of Reinforcing Properties of Amantadine and its
Effect on Cocaine Self-Injection in Baboons
C. Sannerud and R. Griffiths................................................. 30

Cocaine-Induced Changes in the Neurotensin Systems of the
Basal Ganglia
G. Hanson, P. Smiley, L. Bush and J. Gibb......................... 31

Pharmacologic Aspects of Cocaine Rush
K. Kumor, M. Sherer, C. Muntaner, J. Jaffe and
R. Herning................................................................. 32
Prolactin and Luteinizing Hormone Pulse Frequency Analysis in Cocaine Abusers
J. Mendelson, N. Mello, S. Teoh and J. Ellingboe

MDMA Biological Disposition in Man: MDA is a Biotransformation Product
J. Alrazi and K. Verebey

Behavioral and Cardiovascular Effects of Alcohol and d-Amphetamine Combinations in Normal Volunteers
S. Higgins, M. Capeless, J. Hughes, W. Bickel and M. Belinson

A Pharmacological Analysis of the Discriminative Stimulus Properties of d-Amphetamine in Rhesus Monkeys
J. Kamien and W. Woolverton

The Nicotine Withdrawal Syndrome: Nicotine Absence or Caffeine Excess?
D. Sachs and N. Benowitz

The Effects of Chronic Caffeine Exposure on the Reinforcing Properties of Caffeine
S. Evans and R. Griffiths

Endogenous Opioids and Reinforcement: Role of Multiple Opioid Receptor Types and Dopamine
T. Shippenberg, R. Bals-Kubik and A. Herz

Some Behavioral and Biochemical Features of Rat Pups Exposed to Methadone or Buprenorphine In Utero
J. Olley, G. Tiong and A. Cowan

Pharmacological Characterization of the Tail Withdrawal Response as a Measure of Analgesia in Rhesus Monkeys
C. France and J. Woods

Relative Reinforcing Properties of Opioid Mixed Agonist-Antagonist Drugs
N. Mello, S. Lukas, M. Bree and J. Mendelson

Modification in Protocols Used to Characterize Opioids within the CPDD Drug Evaluation Program
J. Woods, F. Medzihradsky and C. France

The Intermittent Antagonist Paradigm: Intermittent Naloxone Attenuates the Development of Physical Dependence on Methadone in Rhesus Monkeys
J. Krystal, M. Walker and G. Heninger
Opioid Receptor Selectivities Induced by N-Substituent Variations
L. Toll, W. Polgar, J. Lawson and G. Loew

A Novel Peptidic Mu Opioid Antagonist with Exceptional Potency and Specificity
T. Kramer, W. Kazmierski, J. Shook, V. Hruby and T. Burks

Differential and Selective Modulation of Opiate Mu Agonist Effects by Delta and Kappa Agonists In Vivo
J. Heyman, R. Sheldon and F. Porrecca

Excitatory Amino Acid Neurotransmission and the Behavioral Pharmacology of Phencyclidine-Like Drugs
R. Balster, J. Willetts, P. Beardsley, B. Hayes and A. Rice

Kinetics of a Receptor-Effector System Capable of Addictive Behavior: Abstinence Response to Withdrawal of Opiate Agonist
J. Villarreal, S. Cruz and L. Salazar

A Response Competition Model of tolerance and Sensitization
D. Newlin

Familial Alcoholism in Opiate Addicts
T. R. Kosten and B. Rounsaville

Characteristics of Women Receiving Mandated Alcoholism or Polydrug Treatment in Massachusetts
B. Lex, S. Teoh, I. Lagomasino and J. Mendelson

The Relationship Between Familial Risk for Alcoholism and Drinking Behavior in College Men
A. Alterman, J. Searles and J. Hall

Gender Differences in the Prediction of Psychotherapeutic Medicine use
A. Trinkoff and J. Anthony

Health, Happiness and Medicine Use in an Elderly Population
W. McKim, M. Stones and A. Kozma

Drug Abuse in Poland: Problems and Trends
T. Chrusciel

Methadone Exposure In Utero: Assessing the Risk Factors
K. Kaltenbach

Alcohol, Drugs and Sex: Risky Behaviors in the General Population. A Report From the St. Louis ECA Survey
L. Cottler and J. Helzer
Pilot Trial of Small Group AIDS Education with Intravenous Drug Abusers
  J. Sorensen, D. Gibson, C. Heitzmann, A. Calvillo, R. Dumontet, E. Morales and A. Acampora ............................ 60

Topographic mapping of Quantitative EEG Variables in Chronic Heavy Marijuana (THC) Users
  F. Struve and J. Straumanis ........................................... 61

Ethanol Effects on Marijuana-Induced Intoxication and Electroencephalographic Activity
  S. Lucas, J. Mendelson, J. Henry, L. Amass and A. Budson ................................................................. 62

Dependence Upon Anabolic Steroids
  F. Tennant ...................................................................... 63

Experimental Analysis of Triazolam and Pentobarbital-Induced Memory Impairment
  J. Roache, T. Kirk and R. Griffiths .................................. 64

Evaluation of the Abuse Potential of Methocarbamol in Man Compared to the Benzodiazepine Lorazepam
  J. Guarino, K. Preston, W. Kirk and R. Griffiths ............... 65

Developmental Time Course of Acute Opioid Physical Dependence in Humans
  S. Heishman and M. Stitzer ............................................. 66

Predictors of Opiate Use During the Course of a 90-Day Methadone Detoxification
  M. Iguchi, M. Stitzer and I. Liebson .................................. 67

Opioid Detoxification Using Buprenorphine
  T. R. Kosten, J. Krystal, C. Morgan, D. Charney, L. Price and H. Kleber ..................................................... 68

Difficulties in a Clinical Application of Methadone Dose Contingency Contracting
  D. Nolimal and T. Crowley ............................................. 69

Relationship of Client Characteristics with Non-Compliance in Methadone Maintenance Treatment
  A. Tommasello, K. Nilsen and J. Ball ................................ 70

Comparative Effectiveness of Reducing Cocaine Abuse Among Methadone Patients using Phase Lowering or Dose Reduction
  R. Wang and M. McCarty ............................................... 71
SYMPOSIA

DRUGS OF ABUSE AND THE IMMUNE SYSTEM

Basic Immunology Issues in Drug Abuse
F. Kind................................................................. 72

Immunological Approaches to Clinical Issues in Drug Abuse
M. J. Kreek............................................................. 77

Drug Abuse and Immune-Neuroendocrine Connections
D. Harbour and E. Smith........................................... 87

Immunological Effects of Drugs of Abuse
R. Weber............................................................... 99

Opiates as Immunocompromising Drugs: The Evidence and Possible Mechanisms
R. Donahoe........................................................... 105

SPECIAL CHEMISTRY SESSION

In Memoriam: Leo Berger
A. Thurkauf and G. Olson.......................................... 115

Ligands for Imaging Opioid Receptors in Conscious Humans by Position Emission Tomography (PET)
A. Newman, M. Channing, R. Finn, B. Dunn, N. Simpson,
R. Carson, N. Ostrowski, R. Cohen, T. Burke,
S. Larson and K. Rice............................................. 117

Phenylclidine (PCP) and Phencyclidine-like Compounds: A Molecular Graphics-Molecular Mechanics Study
F. Carroll, G. Brine and S. Mascarella......................... 122

Structural Studies Leading to the Discovery of a Cannabinoid Binding Site
M. Johnson, W. Devane, A. Howlett, L. Melvin and
G. Milne............................................................. 129

New 14-Aminomorphinones and Codeinones
J. Lewis, C. Smith, P. McCarthy, D. Walter,
R. Kobylecki, M. Myers, A. Haynes, C. Lewis and
K. Waltham........................................................ 136

Structure Activity Studies of Two classes of Beta-Amino-amides: The Search for Kappa-Selective Opioids
G. Loew, J. Lawson, L. Toll, G. Frenking,
I. Berzetei-Gurske and W. Polgar........................... 144
